

GenAI App: Code Debugger App

Find the bugs in your python code and make it corrected by this app

Enter the code snippet

Fix the Code

GenAI App: Code Debugger App

Find the bugs in your python code and make it corrected by this app

Enter the code snippet

```
import numPY as np  
import Pandas as pd
```

Fix the Code

Bug 1: The module name 'numPY' should be corrected to 'numpy'. Bug 2: The module name 'Pandas' should be corrected to 'pandas'.

Corrected code:

```
import numpy as np  
import pandas as pd
```

GenAI App: Code Debugger App

Find the bugs in your python code and make it corrected by this app

Enter the code snippet

```
prnt("i am srinivas")
```

Fix the Code

Bug 1: The function name is misspelled. It should be "print" instead of "prnt" for printing a message.

Here's the correct code snippet:

```
print("i am srinivas")
```

This will correctly print the message "i am srinivas" to the console.
